

## OACETT AWARD RECOMMENDATION

Award Recommended: George Burwash Langford

Nominee-Name: Youssef A.H. M'Roueh, CET Member No: 7694

Resident of: Scarborough, Ontario

### Citation:

To recognize a career of dedicated professionalism in the field of  
metallurgical technology.

### Basis for the Award:

Youssef M'Roueh holds a D.Sc. in Physics from Jackson State University and  
is registered as a Senior Engineering Technician. He is employed by  
Brown Boveri Howden Inc. His nomination \*was thoroughly documented with  
examples of noteworthy achievements. He has, over many years established  
a reputation for professional competence and consistency in his field.  
He has developed specialized procedures and associated training programs  
for the non-destructive examination of materials in an operating nuclear  
environment. Much of this is original work, yielding significant economic  
benefits to his employer and clients. It also represents an important  
contribution to the development and advancement of technology in the Canadian  
nuclear industry. His career exemplifies the professionalism that Dr.  
Langford imbued into the Association and which this award was designed to honour.  
\*The original nomination was submitted in 1985 for the Outstanding  
Technical Achievement Award. The Committee's decision was to hold the  
nomination pending implementation of the Langford Award, as it is more suitable.
